APPS *for an* EASIER COMMUTE

METRO & BUS

DC Rider | DC Metro and Bus | BusTrack DC
These apps help you track, in real-time, the Metro and bus systems throughout the DC region. Real-time arrival information means less time waiting at stops.

TRIP/COMMUTE PLANNER

CarFreeAtoZ
Arlington County's comprehensive trip planning tool allows you to see every possible transportation method when planning your commute.

Transit | Citymapper
Both Transit and Citymapper are similar trip/commute planning tools for finding ways to get from point A to point B. They both include schedules, real-time transit arrivals, plus additional mode information for bikeshare, carshare, Uber and Lyft.

BIKING & BIKESHARE

Google Maps
Setting Google Maps to the biking view shows you all available bike paths, lanes or trails and prioritizes using them for a smoother and safer ride.

Capital Bikeshare
Capital Bikeshare's app allows you to see how many docks and bikes are available at each station in real-time. You can also use it for unlocking bikes and planning your route.

LimeBike | MoBike | Spin | Jump
Dockless bikeshare options in the DC region to help you get to your final destination. Each system requires the user to download a separate app to activate and find bikes.
